"We're Impressed With The M.S.U. Flock"  
Alden Olsen had the opportunity to view the Michigan State University Brood Ewe Flock in early May and reported, "They have one of the finest uniform ewe flocks I have been privileged to see. Their ewe flock is composed of a good, snappy looking group of Suffolk ewes." We think this outstanding stud ram will nick well in their flock; we urge you to watch for his progeny in future years!
